

# energy efficiency in building services engineering

This solar digital display is used in the communauté de communes du Grand Cubzaguais, a French public institution for intercommunal cooperation (EPCI), located in the department of Gironde in the region of New Aquitaine.

Ce bâtiment produit  
de l'énergie solaire

⇒ Puissance instantanée  
3267 KW

⇒ Energie cumulée  
23343 mWh

⇒ CO<sub>2</sub> évité  
14435 Kg

SERIES  
XC450-LCR-A-05-L9800C

DISPLAY  
55 mm LED red

MEASURES  
1000 x 560 x 62 mm

FEATURES  
Ethernet TCP/IP  
Climate control  
Equipment package for outdoor use  
The automatic brightness control adjusts the brightness to the ambient light.
